Hyderabad, Telangana

SUMMARY

Software Engineering student with strong foundations in **Data Structures, Algorithms, Object-Oriented Programming, and Operating Systems**. Experienced in building **scalable backend services and full-stack applications**, and designing **RESTful APIs** using modern web technologies.

EDUCATION

VNR Vignana Jyothi Institute of Engineering and Technology November 2023 – June 2027
Bachelor of Technology in Computer Science and Engineering **CGPA: 8 / 10**

WORK EXPERIENCE

Infosys Springboard Internship 6.0 — [Certificate](#) Sep 2025 - Dec 2025
Full-Stack Software Engineering Intern (Remote)

- Developed & improved scalable backend services, full-stack web modules using **React, Node.js and MongoDB**.
- Designed and implemented **RESTful APIs** to support integration of intelligent services and external APIs.
- Worked in an **Agile development environment** involving sprint planning, code reviews, and iterative delivery.
- Deployed and tested backend services on **cloud infrastructure (basic exposure to AWS services)**.

TECHNICAL SKILLS

Languages: C, C++, Java, JavaScript, Python
Web Technologies: React.js, Node.js, Express.js, MongoDB, SQL, React Native
Databases: MongoDB, Relational Databases (SQL)
CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
Concepts: Distributed Systems, Scalable System Design, REST API Development, Agile Software Development
Tools: Git, GitHub, VS Code, Postman

PROJECTS

Blood Donation Platform (Full Stack, MERN) — [GitHub](#)

- Built **scalable backend services and REST APIs** for a full-stack web application connecting blood donors and recipients using React, Node.js, Express, and MongoDB.
- Implemented secure **authentication, authorization, and location-based donor search**.
- Designed modular service layers and optimized MongoDB queries for efficient and fault-tolerant data access.

Tutly – Open Source EduTech Platform — [GitHub](#)

- Developed reusable and responsive **React components** for course and content management.
- Integrated frontend modules with backend APIs enabling data-driven features.
- Collaborated in an **Agile open-source environment** using GitHub issues, pull requests, and code reviews.

ACHIEVEMENTS

- **Smart Interviews Gold Certificate** — Ranked among top 9,000 participants out of 45,000+ students (2024).
- Finalist at **VibethonX 2025 Hackathon** conducted at CBIT.
- Selected for **Infosys Springboard Pragati Program** (2025).
- **Web Development Mentor** — Guided 70+ students in frontend and full-stack development.
- Competitive programming: **LeetCode Rating 1400** and **CodeChef Rating 1420**.

CERTIFICATIONS

- **Certified in Front End Web Development** via Infosys Springboard ([Certificate](#))
- **Certified in Google Cloud**([Certificate](#))
